

# Would you like a returnable container or cup to-go?

**Offer your customers a reusable, returnable container or cup that they can borrow to enjoy waste-free takeout orders!**

- Reduce single-use plastic and waste.
- Save **money**, time and space needed for single-use foodware (can cost less than single-use).
- Single-use plastic foodware (e.g. cutlery, bags, straws, and some containers) will be banned in Canada by the end of 2023.
- Returnable takeout services can manage the containers and returns for you - see options on the reverse.

**92% of customers surveyed in Toronto want businesses to do more to reduce waste.**

**U of T  
Trash Team**

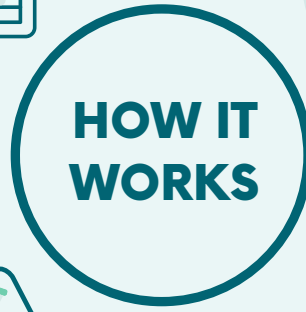

# Would you like a returnable container or cup to-go?

Foodware is washed and sanitized by service or restaurant

Restaurants serve in reusable takeout foodware

Customers return the reusable foodware

Customers enjoy their meal or drink delivered or to go
